DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 03 April 2009 has been entered.

Status of Application, Amendments, and/or Claims

2. The Amendment filed 03 April 2009 has been entered in full. Claim 20 has been amended. Therefore, claims 20 and 116-118 are currently pending and the subject of this Office action.
3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Withdrawn Objections and/or Rejections

4. The rejection of claims 20 and 116-118 under 35 U.S.C. § 112, first paragraph (New Matter and Enablement) as set forth at pg 4-7 of the previous Office action (mailed 06 November 2008) is withdrawn in view of Applicant's persuasive arguments (Citing for example pg 85-88 of the Spec), and the amendment of claim 20 (filed 03 April 2009).

Maintained and/or New Objections and/or Rejections

Claim Rejections - 35 USC § 101

5. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

6. Claims 20 and 116-118 are rejected under 35 U.S.C. § 101 because the claimed invention is directed to non-statutory subject matter. The claims read on a product of nature in that the claimed protein comprising the amino acid of SEQ ID NO:1 is not “isolated”. The claims encompass, for example, a functional transporter protein (along with a substrate of the protein and a lipid bilayer) that has not been removed from the animal or human. In the absence of the hand of man, the naturally occurring products are considered non-statutory subject matter. See *Diamond v. Chakrabarty*, 447 U.S. 303, 206 USPQ 193 (1980). The claim should be amended to indicate the hand of the inventor, e.g., by insertion of “isolated” or “purified”. See MPEP 2105. It is suggested that amending the claim to recite, for example, “A kit for screening a compound or its salt that promotes or inhibits the activity of a protein comprising the amino acid sequence of SEQ ID NO:1 or its salt, said kit comprising in one or more containers: (a) an isolated protein comprising the amino acid sequence of SEQ ID NO:1 or its salt; (b) a substrate of the protein; and (c) a lipid bilayer, would be remedial.

Summary

7. No claim is allowed.
